# FUSO Genuine Parts and Accessories

Engineered by FUSO with passion and precision just like your truck, to give you the best in quality & reliability. This means you can rely on increased longevity and availability. By choosing FUSO Genuine Parts and Accessories you will benefit from maximum performance and safety at all times.

## Why should you only use **FUSO Genuine Parts?**

MITSUBISHI FUSO  
**GENUINE PARTS**

FUSO  
**VALUE PARTS**

FUSO Genuine Parts are what keep your vehicles running in top condition with a long service life. For that reason we ensure *lasting performance* for our parts and *lasting satisfaction* for our service.

### **FUSO Genuine Parts...**

- ◆ Are designed exclusively for FUSO trucks and buses to ensure the best performance possible.
- ◆ Passed FUSO's extremely demanding tests to ensure a high level of quality and durability.
- ◆ Are available for older models and parts in less demand.

### **FUSO Value Parts...**

- ◆ Offer quality equivalent to FUSO Genuine Parts in key categories.
- ◆ Are specifically for owners with vehicles beyond standard warranty coverage.
- ◆ Are developed to provide a cost-effective alternative for a wide product lineup.

## Why should you only use **FUSO Genuine Accessories?**

ACCESSORIES  
**EXTERIOR**

ACCESSORIES  
**INTERIOR**

FUSO Genuine Accessories are designed to perfectly complement your vehicle. With FUSO Genuine Accessories you can personalize your vehicle long after it's left the factory, a line-up for unsurpassed quality, elegance and refinement. They also let your driving go more smoothly and support you and your vehicle's safety.

### **FUSO Genuine Accessories...**

- ◆ Are specifically developed for FUSO truck and bus models.
- ◆ Have a wide range of items to provide the owners the right line-ups to personalize their cabin.
- ◆ Are offered in the highest stability and longer durability.

## FUSO Genuine Oil Filter

FUSO Genuine Oil Filters trap impurities from the engine oil to prevent deterioration of the oil in order to maintain smooth engine operation. With its larger filtration areas, FUSO Genuine Oil Filters offer superior filtration, resist clogging, and trap impurities without restricting the oil flow.

### Why should you only use FUSO Genuine Oil Filters?

#### They are highly durable and trap dirt particles effectively...

- With thick filter paper with a large surface area optimized for the respective engines.
- Since some imitations use filter paper made from lower-quality material and have less surface area, leaving more dirt particles to remain in the oil, lowering performance and increasing the risk of engine damage.

#### High quality oil filters with fine pores...

- Stop dust from passing through and prevent oil deterioration in order to maintain smooth engine operation.

#### FUSO Genuine Oil Filters provide superior cost performance...

- Since they are more durable than imitation parts and operate better to remove impurities that can cause engine damage.
- Although imitation parts may have lower price, they are more expensive in the long run because of lower durability and shorter maintenance intervals.

#### Advantages of FUSO Genuine Oil Filters:

- Designed and manufactured specifically to work with FUSO engines
- Meet the high standards set by FUSO in terms of filtration level, oil pressure and flow volume
- Offer finer filtration and better durability
- Resist clogging better than imitation parts
- Better cost performance over the long term
- High-grade oils demand the finer filtering
- Available for a wide range of current and previous-generation models

## FUSO Genuine Fuel Filter

FUSO Genuine Fuel Filters clean unfiltered fuel before it enters the fuel supply system by trapping impurities such as paint chips, dirt and rust particles caused by moisture in the fuel tank. The efficient removal of these impurities will prevent rapid wear and damage of the fuel pump and injectors.

### Why should you only use FUSO Genuine Fuel Filters?

#### **They are more clog resistant and effective...**

- At removing water and impurities from the fuel.
- Since some imitations parts use low-quality filter paper which raises the risk of clogging and allows more water to remain in the fuel, which might lead to the formation of damaging sulfuric acid.

#### **They are more resistant to leaks ...**

- As they are made with heat-hardened glue, a higher standard compared to imitations.
- As inner gaskets are precision made from a high-grade oil-proof material strong enough to retain shape and elastic enough to ensure a safe seal.

#### **They are more effective at removing water and impurities from the fuel...**

- Which will prevent engine damage in the long term for owners.
- Although imitation parts may have lower initial price, they are more expensive in the long run because of their lower durability and the shorter maintenance cycle.

### **Advantages of FUSO Genuine Fuel Filters:**

- Extensively tested for durable performance
- Resist clogging better than imitation parts
- Better cost performance over the long term

## FUSO Genuine Air Filter

FUSO Genuine Air Filters play a key role of providing clean and sufficient quantities of air to the combustion chamber of the engine by removing harmful impurities such as sand, metal particles, dirt and dust. Such impurities, if mixed into the engine oil, will hasten oil and wear area deterioration. Extensively tested for effectiveness and durability, Genuine Air Filters help to extend the life of engines as well as improve fuel economy.

### Why should you only use FUSO Genuine Air Filters?

#### They improve air quality because...

- Their filter media is optimized for respective engines.
- Imitation air filters use filter media made from recycled paper or waste material and have effectiveness.

#### They can offer higher performance because...

- They are made with heat-hardened glue and are more resistant to leaks.
- Their filter gaskets are precision-made from high-grade oil-proof rubber which helps maintain their elasticity for a secure seal.
- Imitation filters are less resistant to leaks as they use a weaker air-dried epoxy, and their gaskets are made from general-purpose rubber.

#### They contribute to reduce the total cost of ownership because...

- Compared to imitation parts, they are more effective at filtering harmful particles, thereby preventing piston wear and rapid oil deterioration.

### Advantages of FUSO Genuine Air Filters:

- Designed specifically to boost the output of FUSO engines
- Matched specifically to their respective engines high output needs
- Specially developed filter media is extensively tested for better performance
- Extend the life of the engine and improve fuel economy
- Better cost performance over the long term

## FUSO Genuine Brake Pads & Brake Linings

To ensure consistently sharp and safe braking without excessive wear or brake fade, brake linings must be capable of surviving extremely high temperatures and repeat use. Genuine Brake Linings and Brake Pads have been extensively tested for durability, wear characteristics, noise, and vibrations for stable and consistent performance, even at high speeds.

### Why should you only use FUSO Genuine Brake Pads & Brake Linings?

#### They stay consistently effective because...

- Changes in speed have little influence on their performance.
- Imitation brake parts tend to deliver less stable braking performance at higher speeds.

#### They offer superior fade protection because...

- Our brake linings are more temperature resistant for better braking stability.

#### They perform smoothly because ...

- They are engineered to deliver smooth braking, without noise and shuddering.

#### They offer superior cost performance because...

- Unlike imitation parts which need to be changed frequently, they are more durable and last longer.
- Our brake linings cause less drum damage which would require expensive replacements.

#### Advantages of FUSO Genuine Brake Pads & Brake Linings:

- More stable and effective even after heavy usage
- Resistance to brake fade gives them greater reliability
- Quieter and smoother performance
- Better cost performance over the long term
- Designed to minimize environmental impact

## FUSO Genuine Clutches

FUSO Genuine Clutches play an important role of transmitting or cutting off power from the engine to the transmission when your vehicle is starting, accelerating, decelerating, or stopped. It also has a fuse-like ability to cut engine power quickly to prevent serious damage to the drive train.

### Why should you only use FUSO Genuine Clutches?

#### They are available for all FUSO vehicles because...

- Our clutches have been developed to fit FUSO truck and bus models.

#### They can perform for a long period because...

- Our clutches provide twice as much lifespan as some imitation parts.

#### They offer you a smooth start because...

- We designed them for optimum performance and stable transmission, providing smoother acceleration.

#### They can perform even in the heat because...

- The friction coefficient of our clutches remains high even in hotter temperatures, giving them greater performance under normal conditions.

### Advantages of FUSO Genuine Clutches:

- Available for all FUSO trucks and buses
- Better cost performance over the long term
- Stable torque transmission for smoother, quieter start
- Stable and long-lasting performance

## FUSO Genuine Wiper Blades

FUSO Genuine Wiper Blades ensure maximum visibility, whether you are driving in summer or winter, rain or snow. It keeps your window clean, which is crucial for safe and legal driving.

### Why should you only use FUSO Genuine Wiper Blades?

#### They improve visibility because...

- Our wiper blades have been developed to match exactly the shape and curve of all FUSO truck and bus windshields.

#### They make less noise in operation because...

- They are designed to match the aerodynamics of your vehicle perfectly, minimizing noise.

#### Highly cost-effective because...

- They are made from high quality materials to last longer.

#### Advantages of FUSO Genuine Wiper Blades:

- Available for all FUSO trucks and buses
- Better cost performance over the long term
- Quieter and smoother

FUSO  
**VALUE PARTS**

## FUSO Value Parts

When should you compromise on quality and value when it comes to parts you need to operate your business? The short answer is: never. With FUSO Value Parts, you are assured of authentic parts with the highest precision manufacturing guaranteed by FUSO, without paying a premium. For excellent value at affordable prices, we have made the choice easy. The quality of FVPs is secured and approved by FUSO, at the same time we achieved attractive prices for you.

### Why should you use FUSO Value Parts?

#### They provide high quality and performance because...

- Our FUSO Value Parts are tested according to FUSO's high quality standards.

#### Intriguing offer for vehicles after warranty period because...

- FUSO Value Parts are specifically developed for owners with vehicles after warranty.

#### They come with significant cost savings because...

- FUSO Value Parts have a wide range of parts, providing a cost-effective alternative to buying FUSO Genuine parts. Their aim is to ensure reliable operation.

## FUSO Genuine Oils & Chemicals

FUSO Genuine Oils and Chemicals keep our vehicles running in top condition with a longer service life to give you the best in quality and reliability. This means you can rely on increased longevity, availability, as well as enhancing the resale value of their vehicle.

### Why should you only use FUSO Genuine Oils and Chemicals?

#### FUSO Genuine Oil provides high quality and performance because...

- Since not all engine oils are the same, oil with higher quality protects the engine better. FUSO Genuine Engine Oil was developed to provide the finest quality that has been extensively tested to meet the demands of the engine.

#### AdBlue® for reducing NOx from the engine is environmentally friendly because...

- The BlueTec® Exhaust Gas After-treatment System is reliable for reducing NOx from the engine.
- Innovations such as the BlueTec® technology increase practical fuel efficiency, thereby increasing economic efficiency despite the added cost for AdBlue® (aqueous urea solution).

#### Our FUSO Genuine Injection Cleaner prevents unexpected failure and maintains excellent performance because...

- It prevents engine troubles, recovers engine power, and prevents poor fuel consumption.
- In order to improve fuel efficiency, engines inject fuel at high pressures. This raises the fuel temperature, which makes the internal fuel injection system (specifically the injectors) susceptible to dirt deposits, fuel impurities, and fuel additives. The deposition may affect the normal control of fuel injection, resulting in unexpected engine troubles.

## FUSO Genuine Accessories – Exterior

FUSO Genuine Accessories allow you to define your driving experience with the same uncompromising quality and standards you have come to expect in your vehicle. With over 300 different Accessory items for heavy, medium and light duty trucks and buses, our accessories are designed to perfectly complement your vehicle. With FUSO Genuine Accessories you can personalize your vehicle long after it's left the factory, a line-up for unsurpassed quality, elegance and refinement.

### Why should you only use FUSO Genuine Exterior Accessories ?

**They are available for all FUSO vehicles because...**

- Our exterior Accessories have been specifically developed for FUSO truck and bus models.

**They assure high quality and performance because...**

- Our exterior Accessories are tested according to FUSO's high quality standards.

**They ensure high reliability because ...**

- We assure high stability and long-lasting performance.

FUSO will introduce even more parts in the future which not only make the vehicles look more attractive, but also help enhancing fuel efficiencies and drivability.

## FUSO Genuine Accessories – Interior

The interior of the cabin of your vehicle defines your comfort, especially if you drive long distances or on a daily basis. With FUSO Genuine Interior Accessories you can personalize the cabin of your vehicle that it best match your taste and your preferences. The full accessory line-up ensure highest driving comfort and customized design-tailored to individual requirements.

### Why should you only use FUSO Genuine Interior Accessories?

#### They assure high quality and performance because...

- Our Interior Accessories are tested according to FUSO's high quality standards.

#### They make your daily drive more comfortable because...

- With FUSO Genuine Interior Accessories you have the right product line-up to personalize your cabin to match your preferences.

#### They assure you the highest reliability...

- With their great stability and long durability optimized for your vehicles.
- Although imitation accessories may have lower initial price, they are more expensive in the long run because of their lower durability.

# Major periodic replacement parts for trucks of Mitsubishi Fuso

The following are major periodic replacement parts that we recommend replacing in order to always safely and comfortably use the trucks of Mitsubishi Fuso. Please note that the parts that are shown below are not the only ones that we recommend replacing on a regular basis. Please check the Owner's Manual/Service Booklet inside your vehicle for more specific information, and make effort to replace the parts of your vehicle whenever it is appropriate.

## Lubricants, fluids, elements

Power steering oil and oil filter

Brake fluid

Grease on wheel hub bearing  
(replacement at time of vehicle inspection)

Clutch fluid

Manual transmission and transfer oil

Differential oil

**Engine oil and oil filter**

Engine cooling water

Air cleaner

Fuel filter

\*The items printed in bold are parts needing periodic replacement.

## Rubber parts, etc.

Power steering hose

Rubber parts inside power steering

Brake hose

Brake fluid tank tube

Drum brake wheel cylinder cap and other rubber parts

Air charge and air pressure gauge hose

Fuel hose

**Air dryer desiccating agent filter, rubber, and packing**

Disk caliper cap and other rubber parts

Master cylinder rubber parts

Servo unit vacuum hose

Servo unit rubber and packing

**Valves for brakes**

**Brake expander rubber parts**

**Brake chamber rubber parts**

**Brake chamber piggyback**

"Shaping Future Transportation" (SFT) is the name of a Daimler's global initiative for commercial trucks. Its purpose is to drive technical innovation even further to preserve global environment and to form a society with safe transportation for the future.
