New Canter Extra Long Bus Showcased at Indonesia's GIIAS 2026

- **New Canter Extra Long Bus launched for passenger transportation and tourism applications.**
- **After-sales service enhancements further advance the “Zero Down Time” approach**
- **Five display vehicles showcase solutions for Indonesia’s transportation and logistics sectors.**

KAWASAKI, JAPAN / TANGERANG SELATAN, INDONESIA, AUGUST 5, 2026 - Mitsubishi Fuso Truck and Bus Corporation (MFTBC) announces that PT Krama Yudha Tiga Berlian Motors (KTB), Mitsubishi Fuso's distributor in Indonesia, showcased new products and solutions designed to address customers' business needs at the GAIKINDO Indonesia International Auto Show (GIIAS) 2026, held in Jakarta, Indonesia, from July 30 to August 9, 2026. Among the highlights, KTB introduced the new Canter Extra Long Bus and presented initiatives supporting the "Zero Down Time" approach through enhanced after-sales services aimed at maximizing vehicle uptime and operational efficiency.

The newly launched Canter Extra Long Bus was introduced in response to growing demand from tourism operators, public transportation providers, and intercity transportation services. Based on the proven Canter platform, the vehicle features a 4.2-meter long wheelbase, enabling flexible body configurations while combining a compact turning radius with enhanced ride comfort. Designed to meet a wide range of passenger transportation needs, the Canter Extra Long Bus offers a practical solution for diverse operating environments.

Canter Extra Long Bus at GIIAS 2026

MITSUBISHI FUSO TRUCK & BUS CORPORATION

An ARCHION Group Company

In addition to the Canter Extra Long Bus, Mitsubishi Fuso showcased a total of five vehicles at GIIAS 2026, including the battery-electric eCanter, the light-duty truck Canter FE 84G, the medium-duty truck Fighter X FM65F Tractor Head 4x2, and the Fighter X FN61FSL Logistic Package. These vehicles represent solutions designed to address a wide range of transportation and logistics needs in Indonesia.

“Zero Down Time” initiatives on display at GIIAS 2026

To further advance the “Zero Down Time” approach, a range of after-sales initiatives were introduced to maximize vehicle uptime and operational efficiency. These initiatives include 24-hour service support at key locations, dedicated service facilities situated closer to customer operations and expanded spare parts solutions that help optimize maintenance costs while maintaining vehicle reliability.

Customer-focused transportation solutions continue to be supported through a comprehensive after-sales network and digital services in Indonesia. By combining reliable products, extensive service support, and innovative technologies, these efforts help improve operational efficiency while contributing to the sustainable growth of the transportation and logistics industry.

MFTBC at a Glance
